

Why we need Racism

3 (of many) Final Fantasy antagonists that are better than Sephiroth

1. Kefka

- literally crazy (with backstory)
- just wants to destroy stuff
- Chad attitude
- iconic laugh
- Become god of magic and destroyed the entire world

Sees the world
for the fucked up place
it is

The Chad Madlad

Is the
disaster

Is a raid boss
in FFXIV

Succeeded
in his quest

Has an iconic
giggle

Has a sexual
attraction to himself
His theme sparks
fear

is actually
mentally insane

isn't milked to death

Cloud of Darkness

- Is Beautiful
- Emissary of Void
- Timeless and eternal entity who will always exist to consume the world
- defeating it merely sends it to sleep
- actually killed the Heroes of Light (the Protagonists)

3. Kuja

- Fabulous and elegant
- Knows how to create Black Mages artificially
- Controls Silver dragons and a literal Divine Dragon
- Angel of Death
- Never got defeated by the good guys (last fight ends in a draw)
- never developed human emotions
